MEMORANDUM FOR: Deputy Director for Operations, OIT

25X1 FROM:

[REDACTED]
Chief, Foreign Networks Division, OC

25X1 SUBJECT:

Non-Text Communications Services [REDACTED]

25X1 1. Over the past year, our staffs have discussed the need
25X1 for a "facsimile service center" to provide a Headquarters
facility for exchanging documents with the field. [REDACTED]
[REDACTED]

25X1 2. We assume that providing these services can best be done
with communicators handling the circuit establishment,
transmission and media input/output. Consequently, we believe
that the facsimile service center should be expanded to become a
non-text service center for facsimile, imagery and voice
forwarding. [REDACTED]

25X1 3. There is a near term requirement for the voice
25X1 forwarding, and we need to move quickly on this. If you agree
25X1 with this approach, please have your staff contact [REDACTED]
25X1 [REDACTED] to work out the details on establishing
this service. [REDACTED]
